

INNERGEX WELCOMES A NEW VICE PRESIDENT – HUMAN RESOURCES

LONGUEUIL, Quebec, June 5, 2020 – Innergex Renewable Energy Inc. (TSX: INE) ("Innergex" or the "Corporation") is pleased to welcome Alexandra Boislard-Pépin as its new Vice President – Human Resources since June 1, 2020. Her new role will lead her to collaborate in the implementation of the Corporation's strategy that puts People at the centre of its actions. Her expertise in talent development and her innovative approach to human resources management will support Innergex in its efforts to create a positive work environment where everyone can grow and thrive. After 9 years of loyal services, Anne Cliche, the former Vice President — Human Resources, has decided to reduce her responsibilities with the intention of gradually preparing for her retirement. She will assume the position of Executive Advisor, Change Management to support senior management in various organizational projects and in change management.

Prior to joining Innergex, Ms. Boislard-Pépin worked for three years at Aimia Inc. where she notably held the position of Vice President, Talent and Culture. Previously, she worked at Yellow Pages after having spent 14 years progressing at Pratt & Whitney Canada. Ms. Boislard-Pépin began her career at Takeda Pharmaceuticals. She holds a bachelor's degree with the Highest Honors in economics from the University of Ottawa (1998) and obtained a MBA from HEC Montréal in 2002. She has been a Certified Human Resources Professional (CHRP) since 2009.

About Innergex Renewable Energy Inc.

For 30 years, Innergex has believed in a world where abundant renewable energy promotes healthier communities and creates shared prosperity. As an independent renewable power producer which develops, acquires, owns and operates hydroelectric facilities, wind farms and solar farms, Innergex is convinced that generating power from renewable sources will lead the way to a better world. Innergex conducts operations in Canada, the United States, France and Chile and manages a large portfolio of high-quality assets currently consisting of interests in 69 operating facilities with an aggregate net installed capacity of 2,656 MW (gross 3,556 MW), including 37 hydroelectric facilities, 26 wind farms and six solar farms. Innergex also holds interests in six projects under development, two of which are under construction, with a net installed capacity of 295 MW (gross 369 MW), and prospective projects at different stages of development with an aggregate gross capacity totaling 7,131 MW. Its approach to building shareholder value is to generate sustainable cash flows, provide an attractive risk-adjusted return on invested capital and to distribute a stable dividend.
