## About Innergex Renewable Energy Inc.

For over 30 years, Innergex has believed in a world where abundant renewable energy promotes healthier communities and creates shared prosperity. As an independent renewable power producer which develops, acquires, owns and operates hydroelectric facilities, wind farms, solar farms and energy storage facilities, Innergex is convinced that generating power from renewable sources will lead the way to a better world. Innergex conducts operations in Canada, the United States, France and Chile and manages a large portfolio of high-quality assets currently consisting of interests in 84 operating facilities with an aggregate net installed capacity of 3,484 MW (gross 4,184 MW) and an energy storage capacity of 159 MWh, including 40 hydroelectric facilities, 35 wind farms, 8 solar farms and 1 battery energy storage facility. Innergex also holds interests in 13 projects under development, with a net installed capacity of 731 MW (gross 768 MW) and an energy storage capacity of 745 MWh, 3 of which are under construction, as well as prospective projects at different stages of development with an aggregate gross installed capacity totaling 7,495 MW. Its approach to building shareholder value is to generate sustainable cash flows, provide an attractive risk-adjusted return on invested capital and to distribute a stable dividend.
